A healthy life needs clean, pure refreshment. We reach for it when we awaken, and we finish the day with a sip. We want to live near water, take holidays by the sea, swim and splash with our families. Water is life — our bodies are made for it, and our souls are refreshed by it.

HYBRID  
HYGIENIC  
HYDRATION

For every taste and situation, Hy3 Drink Bottles can keep refreshment close at hand. Your favorite beverage is always at your side or in your bag, stylish and clean. The morning commute with just enough hot coffee; plenty of pure juice and water at the office; replenishing fluids for your evening exercise.

The new Hy3 family is your companion for every day and everywhere.

# HYBRID

hy•brid — composed of different materials

Water and trees, grass and sky, sand and minerals. Nature is a hybrid of endless possibilities. We combine some of those possibilities into a product to keep you healthy and well. Not just glass, not just stainless steel, and not just plastic, but a blend of the best in quality and hygiene, shaped and styled into an aesthetically pleasing, functional bottle. Hy3 Drink Bottles are examples of the finest hybrid products.

# HYGIENIC

hy•gi•en•ic — conducive to good health;  
sanitary

Adequate hygiene is more than a custom or habit – it's necessary for life. All the elements affect our bodies. We need clean air to breathe, healthy soil to farm, uncontaminated food to eat, and pure water to drink. Hy3 bottles are clean, food grade glass, Tritan™, and stainless steel. Our high-tech lids can be easily disassembled and cleaned so you get what you need and want: pure beverages in sanitary containers, conducive to good health — hygienic.

# HYDRATION

hy·dra·tion — the addition and absorption of water

We need proper hydration to function the way we should. But hectic lives and crushing schedules can hinder our quest for hydration. If it's inconvenient, we choose to go without. "We can always get a drink later," we think. Too often, "later" never comes, and we may end our day with fatigue and headaches, the marks of dehydration.

At hand and ready for you, Hy3 Drink Bottles can handle the routine of the commute, the pressure of the office, and the thrill of a good workout, then reward you with a refreshing beverage. "Later" can become "Now!"

OFFROAD  
OR OFFICE

Wherever you are, refreshment can follow. For the trail or the gym, our SPORT bottles are BPA-free Tritan™ and durable enough for your rugged lifestyle. Elegant glass with a silicone cover make the COOLGLASS and SOFTGRIP bottles just right for your desk or table. And on your morning commute, the THERMAL series keeps everything hot or cold, your choice.

# PS-REFRESH

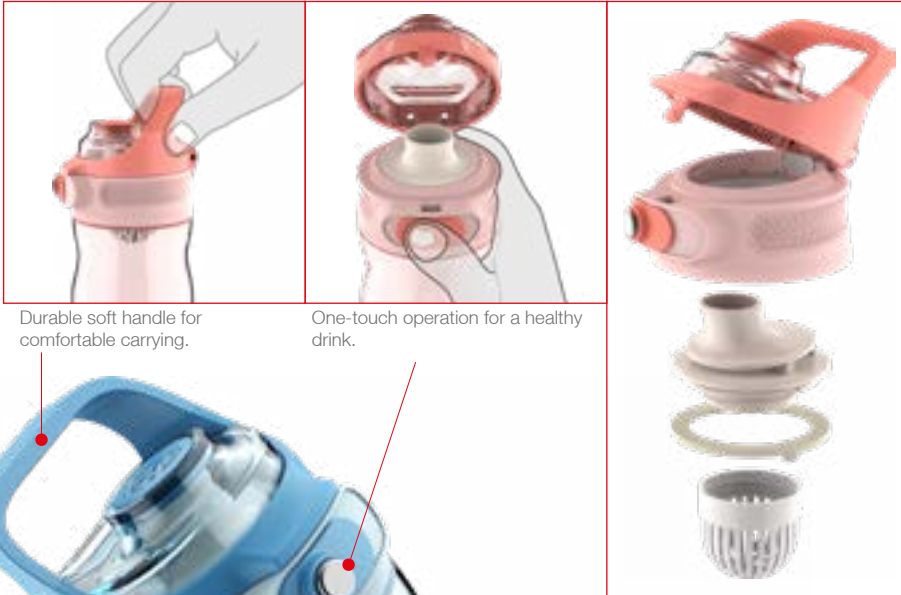

## AutoLOK® Technology

Push, Slide, and Refresh. The new Hy3 PS-REFRESH with AutoLOK® technology is a one-step, one-hand solution for convenient hydration. Great to look at and easy to hold, the PS-Refresh protects your bag or purse – when locked, the lid won't open unless you push AND slide the button. Open the lid all the way back to lock in place for a comfortable drink. When closed, the large drinking spout is sealed 360° with soft silicone. The new SoftGrip® handle design is also silicone, molded securely into the sturdy plastic lid. An integrated infuser filter keeps your fruit and other flavors in the bottle.

## PS-REFRESH AutoLOK<sup>®</sup> Technology

### Features

- 500ml/16oz.
- Lid automatically locks. It won't open unless you Push and Slide the button. Your bag or purse is protected from accidental opening.
- Large, leak-proof drinking spout, sealed 360° with soft silicone.
- Lid can be quickly disassembled for thorough cleaning.
- Integrated infuser filter keeps your fruit and other infusion flavors in the bottle, where they belong. It's also easily removed for cleaning.
- The lid can be locked back at 180° so it will stay wide open while you drink.
- Two available sizes and four colors in BPA-free Tritan<sup>™</sup> plastic.
